

README2

Data:

The fiscal consolidation data are in the files `fiscal_consolidation_v032023.dta` and `dcapb.dta`. The former file contains the latest (March 2023) version of the Guajardo, Leigh, and Pescatori consolidation dataset, kindly provided by Daniel Leigh, personal correspondence. The latter file contains the change in the OECD measure of cyclically-adjusted primary balance, variable name `NLGXQA` from the OECD Economic Outlook, no. 112, November 2022.

The other macroeconomic data are in the file `JSTdatasetR6.dta` which is the 6th release of the Jordà-Schularick-Taylor microhistory dataset.

Code:

The file `all.do` calls the six other `do` files, which load the data, do the LPs, computing IRFs and multipliers, and then save the output.
