Data:

The macroeconomic data include the latest version of the quarterly US Romer-Romer monetary shock (rr_shock), as extended by Johannes Wieland and available at <https://www.openicpsr.org/openicpsr/project/135741/version/V1/view>.

The other data are quarterly levels and first differences of log real GDP, CPI, and the Fed Funds rate, all taken from FRED at <https://fred.stlouisfed.org/>.

Code:

The file all.do calls the two other do files, which load the data, do the LPs, and then save the output.
